

GITM BPA Contract # SAQMMA15D0063

PartnerDirect

# Strategic Communications and Dell.

## Your government technology partners working for you

We're committed to delivering the most secure, reliable, and affordable printing technology solutions to the U.S. Department of State

Understanding your technology needs, from the day-to-day to the strategic is what drives our service to you. We're committed to delivering the most secure, reliable, and affordable printing technology solutions to the U.S. Department of State and their corresponding agencies all the way through consultancy, planning and purchase. Our partnership with Dell ensures that the printing solutions we provide meet the latest TAA, Energy Star, EPEAT and 508 compliances.

Strategic Communications and Dell are fully committed to eliminating grey-market printing equipment, giving Contracting Officers more peace of mind and mitigating their risks. **Strategic Communications is offering Department of State customers a free evaluation C-Unit printer.** For a complete review on Strategic's GITM Printer BPA featuring an array of Dell printer equipment please contact:

## Don't forget about Dell toners

**Superb performance and unmatched quality with Dell original toners**

Designed to work with Dell printers, Dell original toners deliver outstanding reliability and performance for overall savings and excellent print quality.

**STRATEGIC COMMUNICATIONS**  
VOICE, DATA & VIDEO SOLUTIONS  
"NO LIMITS, NO BOUNDARIES"

A Women Owned Small Business and a Minority Owned Small Business, Strategic Communications continues to provide federal agencies with innovative, reliable and affordable technology solutions. Our partnerships with leading OEM allows us to provide technology products that are TAA compliant, FITC certified, APL, EPEAT Gold rated and Energy Star 5.0 rated.
